January 30, 1990

JEFFREY M. SAMUELS
Assistant Commissioner for Trademarks

The limit of 500 Demands for International Preliminary Examination filed by U.S. Applicants with the European Patent Office (EPO) as an International Preliminary Examining Authority (IPEA/EP) was reached at the beginning of February 1990.

A Memorandum of Understanding between the European Patent Office (EPO) and the United States Patent and Trademark Office (USPTO) permits Demands under the Patent Cooperation Treaty (PCT) to be submitted to the IPEA/EP by U.S. applicants (see the *Official Gazette* of July 7, 1987 at 1080 O.G.2). The ability to file Demands with the IPEA/EP under this agreement is limited to U.S. applicants who had filed their international applications with the USPTO in its capacity as a Receiving Office and had their International Search Reports prepared by the EPO. The agreement limits the number of Demands filed by U.S. applicants to 500 for the period of July 1, 1989 to June 30, 1990.

The number of Demands filed by U.S. applicants with the IPEA/EP reached 500 at the beginning of February 1990. U.S. applicants should henceforth file all their Demands directly with the USPTO for processing in the U.S. International Preliminary Examining Authority. Any Demands filed with the IPEA/EP after the beginning of February 1990 will be forwarded to the USPTO for processing.

The current agreement ends on June 30, 1990. A new agreement will be sought and when obtained the results will be published promptly in the Official Gazette.

February 5, 1990

JEFFREY M. SAMUELS
Acting Commissioner of Patents and Trademarks

Reference Collection of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to libury, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
